Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent. of such maladies as Billiousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles 10 cents. Try it. *

BOSCHEE'S GERMAN SYRUP can now be purchased right at home; it is the most successful preperation ever introduced to our people. It works like a charm in all cases of Consumption, Pneumonia, Hemorrhages, Asthma, severe Coughs, Croup, and all other Throat and Lung Diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die, it is your own fault, as you can go to your Druggist .....and get a Sample Bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cts. *

Over 2,600,000 Now in Use.

The genuine Singer Sewing Machines can now be purchased on easy terms by monthly instalments, and cost but a trifle more than those of the most inferior and mushroom character. Our sales in 1877 alone amounted to 282,812, being a majority over all others. The records for 1878, when published, will show a yet greater increase. Regarding the merits of these machines the above undeniable facts speak for themselves. The machines can only be had through our office, the Singer Manufacturing Co.—J. H. McLEAN, Representative.—Office at Fawcett & Co.'s, Government street, Victoria, B. C. *

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanit-plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the irritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices *

NOTICE.

Men sand boys' suits and gent's furnishing goods, hats, caps, boots and shoes, rubber coats, Cape ann oilskin suits, heavy cloths and tweeds, waterproof cloth and Oregon flannels. The above goods will be sold at a very small advance on cost. Garments made to order at a low figure. *

A. GILMORE.

IF heretofore you have been unable to wear a set of artificial teeth call on Dr Cool. He will guarantee all his work *

ANOTHER WONDERFUL CURE
—EFFECTED BY—
California Elastic Truss!

CALIFORNIA ELASTIC TRUSS CO., W. J. Horne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SURSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the ease and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits I am truly yours, ALFRED J. BURKE,

Daily Colonist.

SATURDAY MORNING, MAY 10TH, 1879.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorised Agent in San Francisco.

COLUMBIA'S GRAVEYARD.

The Senate at Ottawa may not inaptly be termed the burial-place of British Columbia's hopes—the cemetery where lie interred the remains of one Island Railway Bill, and where, for aught one can at this moment discern, a similar scheme may follow its predecessor to the city of the dead. "Hark! from the tombs a doleful sound." The hungry churchyard is looking about for more victims, and in its greed has just swallowed another Columbia measure. The Supreme Courts Bill, having passed the Lower House by a large majority, has been killed in the Senate. In one sense we are not sorry that the Bill has suffered an ignominious death. In another sense we regard the matter as unfortunate. The Senate is largely Conservative. The Bill was a Government one, and in a House devoted to Sir JOHN MACDONALD we really looked for better treatment of a Government measure as a party question. Straws are said to show the direction of the wind. What if the Senate, having merely whetted its appetite—not appeased it—should hunger and thirst for more prey? What if it should hunt larger game—a new Island Railway Bill, for instance—seize it and stamp the life out of it? A former Bill was thrown out because it violated a principle of the Pacific Railway Act, which requires that all contracts for railway work shall be laid before Parliament for its approval. Will the new Bill contain the same defect? And will the Senate, disregarding the wishes of the Lower House, again assert its right to pass on tenders by throwing out the new measure? We do not wish to be understood as wishing to shake popular confidence in the belief that railway construction will be commenced this year in British Columbia. We have every confidence in the *bona fide* intentions of Government; but the Senate's action with respect to the Supreme Courts Bill is at least ominous and it may a second time defeat the desire of the Government to deal fairly with British Columbia. The question will naturally be asked, In what does the utility of a body which exists apparently only for the purpose of thwarting the policy of a Government that is backed by a very large majority in the popular branch of Parliament and precipitating a crisis in British Columbia, consist? Why should it be allowed to encumber the earth? The ensuing two or three weeks will be a period of almost breathless anxiety for British Columbians, for upon events that will unfold themselves prior to the first of June may depend the permanency of British connection on the shores of the Pacific.

THE TOPER CAN CURE HIMSELF.

Two thousand years ago a Greek philosopher declared it was absolutely necessary that every sensible man should get drunk once a month in order to enjoy the pleasure of forgetting for an hour that he lives in such a world as this. And Lord BYRON, the king of the poets says: Man, being a reasonable animal, must get drunk. Some of the greatest thinkers were hard drinkers, but ninety-nine per cent. of the modern topers never think at all. Physicians who have examined their heads have discovered that heads of rotten cabbage were as fit to hold ideas. The headache and the heartache afflict the creature whose brain is saturated with bad whiskey, and it may be a consolation to him to know that he can cure himself. Dr. ROBERT D'UNGER, of Chicago, has discovered a remedy not only to cure intemperance but to leave the drunkard with an absolute aversion to spirituous liquors. The editor of the Chicago *Tribune* asserts positively that Dr. D'UNGER has cured 2,800 cases of the worst forms of intemperance. He is a regular practitioner and gives his recipé *gratis*. Any one can prepare it and every toper can be his own doctor. This is the recipé: "Take a pound of the best quill red Peruvian bark (cinchona rubra,) powder it and soak it in a pint of diluted alcohol. Then strain it and evaporate it down to half a pint. Bottle it and it is ready for use." The patient must take a teaspoonful every three hours and occasionally moisten his tongue between the doses the first and second days. It acts like quinine. The patient can tell by a headache if he is taking too much. The third day the dose is reduced to a half spoonful, then to a quarter spoonful, then down to fifteen, ten and five drops." The very worst case can be cured by this process in thirty days; but in the majority of cases the cure is complete in one week. Great physicians and men whose testimony is above suspicion declare "IT IS AN INFALLIBLE REMEDY;" the first ever discovered that kills the disease and the inclination to drink at the same time. D'UNGER says he is no quack. He wants nothing for the recipé, which he asserts he circulates for the sake of the human family.

THE WAR IN AFGHANISTAN.

Unless some circumstances at present unforseen transpires, it is highly probable that the war in Afghanistan will very shortly be terminated. A conference has been held between representatives of the Viceroy of India and YAKOOB KHAN and it is believed that a pacific solution of the difficulty is virtually reached. General ROBERTS has informed the native magnates that the British Government does not intend to garrison the various fortresses of the country, but is desirous only of securing the frontier, with the view of commanding the passes leading to Cabul. It is to be hoped that England's efforts in the direction of a peaceable settlement of the imbroglio will prove successful. So far as Russia is concerned England's object in going to war has been accomplished, for the intrigues of the Czar have been foiled and an encroachment on the frontier avoided. A continuation of the war merely for the sake of the forcible subjection of natives who are disposed to be friendly would under the circumstances be impolitic. The country is a difficult one for military manœuvring and its climate has already proved fatal to those unaccustomed to it. The attitude, however, assumed by England has demonstrated to her enemies that neither climatic nor geographical disadvantages, nor the difficulties attending the transport of men and supplies will be permitted to deter her from maintaining her rights.

Canadian Mail.

OTTAWA, April 26.—Mr. Marcus Smith will be examined before the Canada Pacific Railway Senate Committee to-morrow relative to the western terminus question and rival routes.

Mr. McInnes, of British Columbia, to-day presented a petition to the Minister of Customs from the salmon canning companies of the New Westminster district, complaining against foreign competition, and stating that unless a rebate, of duties was allowed on all imported material used in the business it would have to be discontinued. The report was accompanied by a label used by Japanese, who have during the past year entered as competitors in this line in the British, Australian, New Zealand, South American, and even Chinese markets. The label contains directions in both English and Japanese for cooking the fish. Last year the Japanese canned no less than 40,000 cases of salmon, containing four dozen cans each. The petition was prepared before it became known that a rebate would be allowed in the new tariff, as has been done.

Col. Weatherly and his son, who were killed in the fight between Col. Wood's command and the Zulus, on the 28th of March, were the brother and nephew of Capt. Weatherley, of the Post Office Department, Ottawa. Col. Weatherley's son was only nineteen years old.

HALIFAX, April 24.—The Newfoundland Legislature prorogued on Saturday night last. The House of Assembly unanimously passed a vote of thanks to Hon. W. V. Whiteway for his services before the Fishery Commission at Halifax.

CHARLOTTETOWN, April 23.—The death is announced of Hon. F. Kelly, M. P. P. for Fort Augustus district. He was 75 years old, and during an active political career filled many offices of importance and trust.

ALMONTE, Ont., April 24.—The vote on the repeal of the Dunkin Act in the county of Lanark, as far as heard from, is as follows:—

For the repeal	459
Against the repeal	38
Majority for repeal	421

CHARLOTTETOWN, P. E. I., April 24.—A poll was held here to-day according to the provisions of the Canada Temperance Act of 1878. It resulted in the adoption of the act by a vote of 857 to 233.

OTTAWA, April 26.—Conservatives and Liberals at Quebec are united in giving Lord Lorne and Princess Louise a grand reception next June. The *Telegraph* says:—"Notwithstanding the opinion of the *Chronicle*, we are glad to perceive that *Le Canadien* to-day is favorable to a right royal reception to those two distinguished people. If we can unite the parties, if we can draw in all the different elements of our people, then the demonstration to the representatives of Queen Victoria in Canada will be, perhaps, the grandest and greatest ever witnessed."

LONDON, April 25.—At the Assizes to-day H. M. Jarvis, late clerk in the Post-office, was arraigned on charges of robbing registered letters. The evidence was fully gone into, and the letters in question traced to the prisoner. The evidence mainly relied on, however, was that showing that Jarvis had spent money very freely, more than his salary could have justified; but the learned judge ruled such evidence out, and directed an acquittal. The prisoner was accordingly discharged.

THE PROPOSITION TO BISECT THE HARBOR.

A Strenuous Popular Protest!

The following is a copy of a petition which is now being circulated for signature and which is being generally signed:

VICTORIA, B. C., May 6th, 1879.

To the Right Honorable Sir John A. Macdonald,

SIR:—The undersigned residents and property-holders of Victoria and its vicinity beg to submit the following facts in order that a gross injustice may be prevented from being perpetrated on the property-holders on Victoria Harbor.

As the representative of Victoria City they trust you will use your influence with the Minister of Marine and Fisheries to oppose the erection of a bridge across the Harbor.

The facts are as follows:—

1st. That in the year 1858 a bridge existed across the Harbor at the foot of Johnson street, as shown on the sketch map of the Harbor sent herewith, at the spot marked A.

2nd. In the year 1861 this bridge was removed, chiefly at private expense, for the purpose of increasing the wharf accommodation of the growing city.

A number of wharves and warehouses were erected at a very heavy cost north of the site of the bridge, and the road to Esquimalt was diverted and now runs over the bridges marked B. and C.

The harbor itself even now is of very limited capacity owing to numerous bays being unfitted for shipping.

At the end of the present session of the Local House an Act was passed hurriedly through, giving the Governor-in-Council the power of granting charters for toll bridges.

Certain members of the House have bought property largely in the immediate neighborhood of the site of the old bridge, and it now appears that their object is to obtain the re-erection of the bridge across the harbor as a toll bridge.

Under the circumstances we respectfully hope that no such license will be accorded as it will inflict a most serious injury on the property-holders north of the proposed bridge.

It will decrease the harbor accommodation two-thirds; even if a swing-bridge was placed on the spot, the channel is so narrow that a serious interruption to the traffic would occur, besides a risk of stranding, and during a stiff breeze it would be almost impossible for steamers or sailing vessels to get through, and it will be an injury to the city at large.

We have the honor to remain, Sir,

Your obedient servants.

The Boat-race on the Tyne.

The result of the great race rowed on the river Tyne on Monday last between Hanlan, the Canadian, and Hawdon, the Englishman, has already been announced in these columns. It would appear from the telegraphic advices that Hawdon was entirely overmatched and that his invincible antagonist was thoroughly aware of the fact. If he had not enjoyed this knowledge he would scarcely have ventured to play with Hawdon as he did almost from the start. Notwithstanding that Hanlan was rowing on a strange course and was pitted against a man who has been a resident of Newcastle-on-Tyne for a number of years, the Canadian seems to have had a swarm of friends amongst the crowds of spectators and to have been accorded fair play in every particular. There can be no doubt he is the better man of the two and was fully entitled to the victory he achieved. To the best of our recollection he has never been defeated and has the most brilliant of records. Amongst his achievements are the following: On Sept. 6th, 1876, he won the first prize in the 3-mile race at the Centennial Professional Regatta, which took place at Philadelphia. On that occasion he beat Higgins, Morris and several other renowned oarsmen. On May 15th, 1878, he defeated F. A. Plaisted in a 2-mile match for $2,000. On June 28th, 1878, in an American championship race rowed at Hudson, he vanquished E. Morris, the celebrated sculler. On July 1st, of the same year, he won the 4-mile race at Brockville regatta carrying off the stakes of $500 and defeating Plaisted and others. Three days later he was proclaimed the winner of the 4-mile race at the regatta which took place at St Vincent, N. Y., the prize money being $200. On August 12th, 1878, at Barrie, Ont., he achieved a signal victory over Ross, Hosmer, Luther and others and pocketed a cool $500 to boot. Shortly afterwards he beat Courtney, the American champion at Lachine, Canada. These are but a few of his achievements, but to them may now be added the result of his contest with Hawdon, and it would not be a matter for great surprise if, in the near future, he were to reach the pinnacle of aquatic fame by defeating Elliott, the champion of England. The city of Toronto, from the vicinity of which Hanlan hails, is justly proud of his skill. He is a good looking fellow, of fine physique and about 24 years of age.

H. M. S. Opal is a composite screw corvette, 2,162 tons, with engines of 2,116 horse-power. She was commissioned at Sheerness on Jany 10th, 1876, with the following officers:—Captain, F. C. B. Robinson; Lieutenants, J. H. Henderson, H. L. Ross, T. S. Robertson and A. F. Graves; Nav. Lieut., G. S. Ralph; Chaplain and Nav. Instructor, Rev. F. J. Matthews, M. A.; Staff Surgeon, T. S. The Flagship Triumph in company with H. M. S. Opal left Honolulu for Esquimalt at 7 o'clock on the morning of the 16th ult. During the voyage up strong and occasionally contrary winds were experienced. The movements of H. M. S. Triumph are not as yet ascertained, but it is stated that she as well as the Opal and Osprey will leave Esquimalt on Thursday next for the coast of Peru. H.M.S. Triumph brought up 47 men and a gunner for H. M. S. Rocket. When she left Honolulu there were no other men-of-war in that port.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, May 9.

W. McWha *vs.* Baker—This was a suit to recover $114.

Mr. Eberts appeared for plaintiff decree.

R. Finlayson and others *vs.* E. A. Thorndyke—This was an action to recover $51.25 from defendant, the captain of the ship Baring Bros., for pilotage dues.

William Etershank sworn—Am a pilot employed in British Columbian waters; on the 7th day of February last was on the pilot boat Carolena at the mouth of Haro Straits outside the harbor limits, but in the pilotage district; saw the steamer Goliah with the ship Baring Bros. within 200 yards of our boat; neither the steamer nor the ship had a pilot signal flying; the signal is a "Jack" at the foremast; we had our pilot flag at the topmast head; we were not hailed by either vessel; Capt. Thorndyke did not accept my services or pay me pilotage.

Mr. Theo. Davie, for the defendant, asked for an adjournment.

Mr. Drake, for the plaintiff, had no objection to make, and the case was adjourned for two weeks.

Ball *vs.* Anderson—The plaintiff claimed $23. Defendant had had a set-off account amounting to $6 25. This sum was allowed and judgment was entered for the defendant, who agreed to pay the difference.

Fletcher *vs.* Jamieson—An action to recover $38, the price of a sewing machine which was left on trial with defendant for a month, who offered to return it before the end of that time.

Mr. Drake, for defendant, asked for a dismissal and the plaintiff was non-suited.

The Star Chamber.

It was a dingy little room without a carpet and close to a public thoroughfare over which wagons rolled, making a loud noise. The witness box was close to the clerk's elbow and to the advocates. This was a skillful arrangement; the witness could answer questions in whispers. It was a common practice to swear the witnesses and permit them to give their testimony without giving their names; The whole proceedings had the appearance of justice, but in that vile court she never showed her face. In the modern court house the witness box is ten or fifteen feet from the Judge and every witness is compelled to give his name in a loud voice before he gives his testimony. In this age justice insists on letting all the world know what she is doing.

THE steamer Enterprise left at 8 a. m. yesterday for New Westminster with the mails and the following passengers: Mrs. Pendray, Mrs. Eckstein, Mrs. King, Mrs. McQuarrie, Rev. Mr. Beckett, Captain Raymur, Captain Cooper, S. Rhodes, and Messrs. A. B. Erskine, L. Bryant, W. Bryant, King, C. Moore, C. Van Orden, John Simpson, C. Brodie and several others.

ARRIVAL OF THE VICTORIA.—The steamship Victoria, Capt. Lyons, from San Francisco on the 5th inst., arrived in Esquimalt harbor at 9 o'clock yesterday morning. She brought the following passengers:—J. M. Bates, wife and four children, and Kenneth Mervyn. The Victoria passed on to Nanaimo for a cargo of coal yesterday.

A DEATH STRUGGLE.—Mr. Wood, of Green River, while cruising in the woods near his farm the other day came across the skeleton of a bear, lying near which was also the skeleton of a man. The indications were that a struggle had taken place between the beast and his supposed victim, the particulars of which will never be known.—*Seattle Intelligencer.*

Temperance in the Navy.

A special public meeting of the National Temperance League was held on Friday night in the Memorial Hall, Farringdon street, to receive from Miss A. E. Weston an account of the progress made in promoting temperance in the Royal Navy. The chair was taken by Admiral Prevost. After a few remarks on the past and present state of the temperance cause in the Navy by Captain Grant, R. N., Miss Weston gave an interesting account of her work among sailors on shipboard and on shore. Branches of the league have been formed on board 202 ships out of 230 in commission. They could now number four Admirals and many Commanders in the ranks of the total abstainers. In the boys' training ships, too, the work had prospered, and on some ships nearly half the boys were total abstainers. The men had to fight a hard battle to stand by their principles. There were many rules in the Royal Navy which made it peculiarly hard for the men to keep the pledge. It was all very well to say that the men should determine not to take up their grog. There were many teetotallers who took up their grog and yet did not drink it. The grog, in fact, was a kind of currency, and a man might sell his grog or get work done by giving it away. Admiral Prevost, who said he had been a total abstainer for more than twenty years, expressed a hope that the Government would see the difficulty in which total abstainers in the navy were placed by the present system of serving out grog, and that some beneficial change would be effected. He had been glad to learn from Captain Grant, who had been one of the first commanders to allow Miss Weston to go aboard his ship to lecture to the men, that the beer canteen in his ship had been done away with and replaced by a coffee canteen by a vote of a majority of the crew. The chairman concluded by urging officers to set an example to their men by abstaining from wine. The preceedings ended with the passing of votes of thanks to Miss Weston and Admiral Provost.—*Times, April 4th.*

Kearney's Estimate.

Last evening a mass meeting of the Eighth Ward Club was held at Turn Verein Hall, Turk street, J. H. Gibbons in the chair. Denis Kearney being introduced, said: "If the election had been deferred for one week the opponents of the new Constitution would have had but few supporters, because they would either run away or blow out their brains. Recollect," he said, "that we as a party were the first that had the courage to come out for the new Constitution. We are not afraid because we have done so. The prominent politicians of the State are afraid of what they do. We want men to come out either for or against and without any wavering. The Constitution will be carried in the city by 10,275 majority, and in the State by over 25,000 votes. It makes me sick to hear men talk, as I have to daily, that the Constitution is to be defeated. The men on Pine, California and Battery streets presume the thing is to be settled down there. But remember, each of the merchants has only one vote. Before 10 o'clock on Wednesday night it will be heralded far and wide that San Francisco has polled 26,000 votes for the new Constitution, and on the following day there will not be railroad cars and schooners enough to take the defeated men out of the city and away from the result of the crimes they dare not face. By seeing that the ballot-box is kept pure and those who attempt to tamper with it on Wednesday next are promptly arrested, the corruptionists will tremble in their shoes. I cannot find words to express the victory we are going to gain on next Wednesday. The Constitution suits the poor and the rich find fault with it because it does; but we are going to stand by it and carry it to a success."—*S. F. Call, May 5th.*

The Hyers Sisters.

"Urlina, the African Princess," was repeated last night at Theatre Royal before a crowded house by the Hyers Sisters combination. The cast of characters was the same as that on Thursday evening and the representation fully as good. Everybody present was highly delighted and the members of the company who took the leading parts were frequently rewarded with loud applause. The music is light and very pleasing and the dialogue so replete with puns and witticisms that it cannot fail to rivet the attention of an audience. The costumes used are very beautiful and appropriate, whilst the arrangement of the *tableaux* and groups greatly enhances the general excellence of the work. "Billy" Kersands is simply a marvel of originality and in himself is a sufficient attraction to draw full houses. The company will give a *matinee* at 2 o'clock to-day when their great musical drama "Out of Bondage" will be given for the first time in this city. The play, which portrays the features of plantation life in the days of bondage and gives pleasing glimpses of subsequent liberty, will be repeated in the evening. The very favorable impression the company has created is a guarantee for an overflowing house on both occasions.

GREAT BRITAIN.

Proposed Inquiry Relative to the Reign of Terror in Russia.

LONDON, April 30.—In the House of Commons to-night, Sir Robert Peel (Liberal Conservative) will ask the Government whether Her Majesty's Government will take any steps in the interest of humanity to mitigate the horrors and atrocities amid which a reign of terror is now carried on in Russia over eighty millions of people.

In the House of Commons to-day, Sir Robert Peel complained that there was no Minister present to answer his question relating to recent events in Russia, of which he had given notice publicly yesterday. He also complained that the Speaker had altered the wording of the question.

The Speaker explained that the question in the form submitted being argumentative, could not be put, and it must be raised in the form of a motion.

O'Gorman, of Waterford City, said the absence of a Minister, when notice had been given of the question to which he should reply, was disrespectful to the House. The subject was then dropped.

THE steamer W. G. Hunt left at 7:30 a. m. yesterday for the Mainland with the following passengers:—Mrs. Nason, Messrs. I. B. Nason, Van Volkenburg, H. W. Tinsman, J. Bagnall, J. Campbell, Blenkinsop, Mohun, Sampson, J. N. Richards, Sweeney, G. E. Magee and several other.

DEATH OF MRS. LEIGHTON.—Mrs. I. B. Leighton, mother of Mrs. R. B. McMicking, and formerly a resident of this city, died at San Francisco on the 30th ult.

The Resident Engineer.

The assault made on Mr. Pearse in the House of Commons is not justified by facts. Mr. Pearse's honesty is above question in this city where he has resided more than a quarter of a century, large sums of money have passed through his hands and every dollar has been satisfactorily accounted for. These assaults on private character are altogether inexcusable.

The Afghan War.

LONDON, April 30.—Negotiations with Yakoob Khan are progressing favorably. His decisive answer is expected in a few days. The British have asked a cession of the Khyber and Khuram passes, and permission to maintain a resident at Cabul.

FOR SAN FRANCISCO.—The following passengers were booked to sail by the City of Chester up to 5 p.m. yesterday: T. Harper, J. A. Loze, Bishop Darieu, Wm. Rogers, Mrs. Carr, Miss Clara Carr, Michael Mullen, Jas. Willis, John Melrose, John Cameron and six in the steerage.

THE steamer Cariboo-Fly left at 7 a. m. yesterday for Nanaimo with the mails and the following passengers:—Mrs. Bremer, Mrs. Julia Joy, Miss Love, Dr. Cool and Messrs. J. Teague, J. Nicholson, G. B. Ordano, J. Gillespie and several others.

WESTERN SLOPE.—This new steamer was hauled alongside Messrs. DeWiederhold & Co.'s wharf, James Bay, yesterday, and on Wednesday next will test her machinery in this harbor as a preliminary to her trial trip.

THE NEW YORK WALKING TOURNAMENT.

Disgraceful Scene in Gilmore's Gardens.

NEW YORK, 1st.—The fourth day of the women's tournament in Gilmore's Garden was the most exciting and disastrous, although the number attending was slim. Out of the 18 who started on the six days' walk, 10 appeared; La Chapelle, Von Berg, Kilburg, Tobias, Cushing, Rich, Farrand, Wallace, Williams, and Von Klamasch. Among those in the front rank, and looked upon by an evenly divided house were Von Berg and Chapelle. Von Berg's score stood 199 miles, while Chapelle was 15 miles behind her. The little French women walked very fast, and began to gain on her heavier companion. She made 20 miles without a rest, and her stock rose rapidly.

In the meantime Rich, the Boston book agent, began to cut up strange antics. She reversed her walk about 2 a.m., going in an opposite direction from the others and insisting on turning out on the wrong side. Her hair hung loosely over shoulders, her eyes wild and glaring, and she appeared to be losing her balance. First she ran against Wallace, then collided shoulder on with Kilbury, and finally brought up against tottering Von Klamasch. The manager then informed the fractious book agent that she must keep her place or she would be taken from the track. She then retired to her tent, breathing vengeance, making loud charges of fraud against the scorers. On her trainer attempting to reason with her, she struck him over the head with a stick, and, grasping her walking whip, hit Plummer across the face. The strain of the terrible walk had proven too much for the poor girl's brain. At 2.30 she was withdrawn, having walked only 131 miles, 6 laps.

La Chapelle and Von Berg kept on with vigorous strides until 5.30 a.m., when the little French woman darted into her tent and hysterically announced her determination to retire from the race. This astonished her doctor and backers, and they expostulated with her, endeavoring to persuade her to return to the track.

"If there was 10,000 at the end of this lap I would not go there to get it," she exclaimed in a rage.

The following version of the cause of her anger was given by those who were present in her tent at the time, one of whom was a well-known athlete and another a professional gentleman of standing.

Mr. LaChapelle was with two French women in a box near the track. The women laughed and jeered at the struggling pedestrienne, and it was said that her husband joined in the cruel and heartless pastime. Madame LaChapelle said something to her husband in French and then darted into her tent. Her husband joined the others in urging her to return.

"No," she said, "I have made a pail full of money for that man and he goes and gets drunk. Now he will have to work for his own living.

In a short time there was a reconciliation between man and wife, but the woman would not again take to the sawdust.

In reply to the question of a reporter as to the cause of the trouble, Madame La Chapelle said, "I was chasing Von Berg close up. She turned; then I turned and went the same way as she did. Then after a while she turned again, and so did I. Then one of the scorers placed a stick in front of me and ordered me to go the other way. I saw there was no chance for a fair walk, so I stopped. I had walked the last twenty miles without a rest, and was as strong as ever I was.

Monsieur—Yes, zat was it.

This conversation occurred about 4 o'clock. At 5 o'clock an application arrived at the Garden from Madame La Chapelle to be allowed to go on the track. This, the manager said, could not be allowed.

At 4 o'clock poor gray-haired Farrand withdrew from the track at the urgent request of a physician. She had been hobbling around painfully with her left knee and feet lame and sore. There was no earthly chance for her in the race. When requested to withdraw in the morning her eyes filled with tears and she begged to be permitted to keep on. She would not have deserted the track in the afternoon if the physician had not informed her in peremptory tones that if she walked another mile it would be at the peril of her life. Farrand had walked 179 miles.

At 5 o'clock Eva St. Clair, who was stricken down early on Saturday morning, was carried from her tent in a helpless condition. She had lain there over fifty hours. Her face had the appearance of death on it as she was carried through the group at the door. Dr. F. B. Clarke, who superintended her removal, wore the most anxious countenance in the Garden. The woman was reported to be in a dying condition last night.

Just after this, Kilbury, the girl of 16, limped by with pale, distorted face. At the suggestion that the girl should be taken from the track, a physician remarked: "That is so, and in all likelihood she will suffer the tortures of the damned the remainder of her life for this walk."

An hour after this Kilbury trotted around the track with flushed cheeks.

At 11 p.m. the close of the fourth day, the score stood:—Von Berg, 262; Wallace, 245; Kilbury, 239; Tobias, 219; Von Klamasch, 203; Cushing, 198; and Williams, 186. Von Berg appeared strong and determined, Kilbury was going steadily, Tobias was walking easily, with long graceful steps, Von Klamasch was pale and lame, Williams and Cushing were taking needed rest, while Wallace the English woman was tough and belligerent. On finishing her 246th mile she said, "I'll whip that Dutch scorer if it costs me $20." This was intended for one of them who accidentally hung up the wrong figure. In speaking of Kilbury, whom she was dogging, she said "She may beat me in her mind, but she can't in her legs."

English Mail.

[Per Steamer Isabel.]

At last the British naval authorities have thoroughly awakened to the importance of seamen knowing how to swim. An order has recently been issued that all candidates for the naval service, whether officers, men, boys, or marines, must produce a certificate that they are able to swim, or they will be ineligible.

In the House of Commons on Monday, Mr. O'Reilly asked the First Lord of the Admiralty what steps have been taken to carry out the intention of the Admiralty with regard to meeting the spiritual wants of the Roman Catholic seamen, as stated by him on the 15th March, 1878, when he said: "It will be the duty of the Admiralty to endeavor to make such provision by attaching a Roman Catholic clergyman to a fleet of say five or six ships operating at a distance from its base or from any port, and if there should be an hospital ship it would not be difficult to provide for the accommodation of a chaplain in the ship."

Mr. W. H. Smith—The Commander-in-Chief in the Mediterranean was directed to give effect to the Admiralty minutes laid before Parliament. I have received a telegram from him from Ismalia, dated the 14th of March. He says, with reference to the Roman Catholic chaplains, that the Board minute has been carried out, that the squadron has not been absent from the ports where the services of the Roman Catholic chaplains were available except for a short time, and that Roman Catholic officers and men have attended divine service whilst in port.

A London correspondent says that one of the signs of the times is the rapid rise in public estimation of Sir Charles Dilke. A few years ago he was the most unpopular man in the House, but since then his clear ideas and correct information on foreign and colonial matters have brought him hosts of friends. "His capacity for work is enormous. He is a clear, good speaker; he is only thirty-four years old, and unless I am very much mistaken he is just now the most promising politician on the island. He is cool and judicious, too, in his own estimate of the present situation. He told a friend of mine the other day that the Liberals would pretty certainly come in at the general election, but that if they did they could hardly remain in office more than six months, because they couldn't hold together under any leadership they were likely to be allowed to have. Of course this refers to the inevitable leadership of Lord Granville in the House of Lords and Mr. Gladstone in the House of Commons."

From tests recently made in India with the Martini-Henry rifle, the arm used by the infantry of the English army, it is shown that the range of these guns is much greater than has commonly been supposed—greater, indeed, than has been claimed for them by their inventors. An ordinary rifle of this class is sighted for a range of 1,400 yards, but at the trials referred to it was found that its fire was perfectly effective at 2,100 yards, and hence all that was required to secure this vast increase in the offensive and defensive power of the infantry service, was a purely mechanical change in the apparatus for sighting at long distances.

A HONESDALE, Pa., bank officer has gone out of the usual track in his journey ruinward. It was not loose society, or the wine cup, or gambling, or stock speculations that did the business for him, if his friends tell the truth. He aimed at superiority, at greatness in all his undertakings. It would not be the correct thing for him to do as the common herd of scapegraces did; and besides his tastes were refined, his ideas of the "fitness of things" highly educated. So he chose an original route—to wit, *via* the pigsty. In an evil hour he became fired by an ambition—not culpable in itself—to improve the breed of pigs in his beloved Pennsylvania. For that purpose he invested in a $2,500 grunter, and his unlucky purchase proved his financial and moral destruction.

A Smart Judge.

[From the Virginia (Nev.) Chronicle, April 23.]

A tough-looking citizen walked into one of the Justices' Courts yesterday forenoon very much intoxicated, and requested that he be allowed to swear off drinking for a year. His Honor obligingly put him through the solemn motion, and the convert, with a confused rumble of well-meant but profanely-expressed resolutions, stumbled out of the court-room.

"Bet he don't keep it an hour," said one of the grinning lawyers.

"Bet he sticks to it for a week, anyhow," observed the Court with confidence.

"Nonsense!" cried everybody.

"What'll you bet?" asked the Judge.

"Twenty to ten," exclaimed an eager attorney, producing the money.

"Done!" cried his Honor, and the stakes were turned over to a *Chronicle* reporter.

"Constable," said the Court quietly, "go out and fetch that man back."

In a few minutes the reformed one was dragged in, and the Judge ascended his dais, rapped for order, and looked severe.

"Charged with being drunk," said the Court. "What's your plea?"

"Guess I'm full," added the prisoner with an idiotic smile.

"Ten days in the County Jail. Constable lock up your prisoner. Mr. reporter, hand this Court that wealth. Court's adjourned. Boys, let's go and flood our lower levels."

VERY DOUBTFUL.—The story is told of an Iowa man that he has been married four times, and has all four of his mothers-in-law living with him in one house. The story is incredible. So brave a man as it implies never lived.

ELECTRICITY! THOMAS' ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical: J. Collard, of Sparta, Ont., writes, "Send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now, its cures are truly wonderful." Wm. McGuire, of Franklyn, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes "Please forward 6 dozen Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Depford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P.Q., writes, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."

BEWARE OF IMPOSTERS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents.
